(BY DIRECT WIRE TO THE TIMES.)

W ASHINGTON, Jan. 11.—[Exclusive Dispatch.] An official of the United States government today stated that the State Department has in its possession information going to show that the and of such strong character that an answer must be returned within a week. Furthermore, the note was so strong that nothing short of granting all demands made by Japan upon Russia will suffice to avoid

ther quarter here today, which was to the effect that the United States has been informed that the prospects of continued peace be-tween Russia and Japan vanished some days ago.

A member of the Cabinet today said that the United States will under no circumstances allow itself to be brought into the conflict, but this Cabinet official ventured the opinion that probably England would become involved. At the same time, from an equally good source of information, it was had that in the event that the Japanese forces are about to be conquered, American commercial interests will make a strong demand for intervention, on the ground that Russian

WILL RESPECT TREATY RIGHTS

(BY THE ASSOCIATED PRESS.—A.M.)

REPLIN, Jan. 11.—(By Atlands Cable.) The Russian government has informed the powers that it will respect the right any nation has in hanchuria under treaty with China. This declaration is made without reservation. Russia gives formal expression to this policy now in consequence of the controversy with Japan, one of whose persistent contentions has been for a definition of Russia's policy in Manchuria, and acknowledgment of Japanese trade privileges. Russia's reply has been, in substance, as follows:

LONDON, Jan. COMES OUT FOR RUSSIA.

RENCH THINK JAPS PIGGISH. OF THE ASSOCIATED PRESS AN 1 PARIS, Jan. 11.—A strong current of official sentiment was set in motion today favorable to strengthening the hands of Russia in her clafms to exchuria. It is pointed out that Russia, having conceded Japan's paramount influence in Korea, Japan appears to be unwilling to make a reciprocal concession by recognizing Russia's paramount interest in Manchuria. There is reason 40 believe that the late Russia's note makes clear Russia's attitude and intentions concerning Manchuria and how far she is disposed to recognize Japan's ambitions in Manchuria. The general purport of the Russian position is that Japanese merchants and individuals have the right of free access to Manchuria for purposes of travel and commerce, but that Russia does not wish this to be extended to the colonization of Japanese in large communities in Manchuria for purposes of travel and commerce, but

anese in large communities in Manchuria.

Strong sympathy is expressed here in behalf of the Russian view, as it is said that the general admission of Japanese colonization in Manchuria would create questions of political and racial domination. It is asserted to be in the interest of the commerce of Europe and America that Russia should replace China's authority within Manchuria. It is also pointed out that Japanese recently restricted the operations of American insurance companies and this is cited as evidence that Russian control of Manchuria is likely to prove as liberal to American and Buropean commerce as Japan's. Therefore, it is maintained in governmental quarters that it is to the general interest of Europe and America to give moral support to a settlement of the pending conflict on the basis of Japan's authority in Korsa and Russia's authority.

President P. H. McCarthy responded in an address, in which he spoke of the healthy conditions of the different councils throughout the State. He said that there had been a gain in membership of several thousand during the past year. The president said that labor in Los Angeles was in a state of chaos, and urged that the State council lend it a helping hand. The report of Secretary Tvetimos of San Francisco was read and approved. The secretary spoke of the good condition of the finances of the council and urged the placing of competent men in responsible places. The convention then settled down to routine business and appointed committees to act during the convention.

At this afternoon's session the reports of the local committees were read. Of-noers will be elected tomorrow.

HOUSING OF AMBASSADORS.

Poor Policy, Says Bryan, Just Heme from Courts of Europe—To Plead Before Congress for Change.

[BY TRE ASSUCIATED PRESS—A.M.]

NEW YORK, Jan. II.—In an article upon his tour of Europe, published in the American today, William J. Bryan discusses his impressions of Switzer-land and comments upon the lack of accommodations for the United States embassies and legations in all the capitals he visited. It is stated that he intends to appear before the committees of Congress and plead in favor of legislation inoking to the purchase of suitable property for such posts abroad.

"The trians of our diplomatic representatives in Europe, together with the high rents they are compelled to pay for their residences, have convinced me," said Bryan, "that we as a people are at fault in not providing permanent and appropriate domiciles for our ambassadors and ministers at foreign capitals. It is scarcely democratic to place upon an official an expense so great as to preclude the appointment of a man of moderate means. Our representatives in Europe are conspicuous in the diplomatic circle at court functions because of their modest attire, but it is not necessary that our ambassadors and ministers homes should be on wheels in order to be democratic. I believe that our government ought to inaugurate a new policy in this matter and build in the chief capitals of foreign nations buildings suitable in every way for the residences and offices of our diplomatic representatives."

In the course of his observations upon Switzerland, Bryan said: "I found that the popular control over government siven tham by the initiative and

referendum that there is no possibility that any party will attempt to attack it. Their arguments are:

"First. That the Legislatures, knowing that the people can initiate legislation, feel less responsible: and, second, that as the legislators' actions can be reviewed by the people, the legislators are more timid about introducing needed 'reforms. The friends of the initiative 'and referendum meet these arguments by declaring that the legislators are really not relieved from responsibility, but are incited to action by the fact that the people can act in the event that their interests are neglected by the Legislature and that the timidity suggested is only likely to prevent legislation when the legislatures themselves doubt the merit of the proposed action.

"Dr. Adolph Deucher, president of the Swiss Confederation, speaks with frankness and conviction and is as simple in his manners as the humblest of his people.

"As a nation Switzerland, with her 5,000,000 population, does not attract the attention that neighboring nations do, and in a contest at arms, except upon her own soil, she could not hope to achieve much, but in that high forum where conscience dictates and where reason rules, she is a conspicuous member of the sisterhood of nations."

In the absence of Secretary Mortimer La Levering, the report of that official was read by Assistant Secretary Frederick P. Johnson. The report dealt principally with the efforts to reorganize the association under the revised constitution. The crowded condition of public lands and the encroachment upon ranges by government forest reserves was referred to. The report stated that this condition had resulted in the past year in a large number of sheep-raisers being forced out of business.

PORTLAND (Or.) Jan. 11.—When the adoption of the constitution was read and put to a vote it was sustained unanimously.

The attention of the convention was then directed to the condition of the range sheep industry in the States of California, Colorado, Idaho, Montana, Arizona, Oregon, Washington and Utah. Representative sheep raisers of these States gave brief reviews of the conditions in their respective States. These talks were devoted particularly to the public land question. The concensus of opinion was that the government, in setting aside extensive forest reserves for the purpose of aiding irrigation and bettering natural water supplies, was going to the extreme and cutting down the ranges to an unwarranted degree. The speakers asserted that the interests of the sheepmen are suffering and many are being forced out of business by the infringement on grasing lands. While they admitted the necessity of preserving the watersheds, they were of the opinion that this end could be accomplished and the interests of the sheepmen be taken care of at the same time.

The action of the railroads in leasing out public land grants for use as grange land was pointed out and it was argued that the government could do likewise with profit to itself and to the internation of the forest reserves for grazing, subject to such regulations as the government shall adopt a broader and more liberal plan in relation to public lands. The sheepmen want permission to use the reserves for grazing, subject to such regulations as the government may see fit to adopt for the protection of the forest reserves. This view on the public land policy was given, for the purpose of supplying information as to the desires of the wool growers, to Prof. Gifford Pinchot and F. H. Newell, President Roosevelt's commission, appointed to consuit with the stockmen on this matter. These representatives of the government were present.

It was siggested that the relief sought by the sheepmen would be at-

resentatives of the government were present.

It was suggested that the relief sought by the sheepmen would be attained could they secure the passage of the bill now pending in Congress, transferring the executive control of public lands to the Department of Agriculture from the Department of the Interior. Resolutions expressing the desire of the convention for the passage of this bill were immediately adopted and copies ordered sent to Congress.

Politicians Might Like to See the Chief Executive Seaten, but If They Dared to Organize There the People Would Arise and Trample

(BT DIRECT WIRE TO THE TIMES.)
WASHINGTON, Jan. 11.—[Exclusive Dispatch.] "It makes me somewhat tired," said Representative Landis of Indiana, at the White House today, "to hear the talk about the opposition to the nomination of the President in Indiana. In cold fact, there is no opposition to the President in Indiana. There may be politicians who would like to see him defeated for nomination, but those men are held down hard and fast by the absolute knowledge that they cannot organize opposition to him. If the people of the State thought the politicians were organizing to secretly or otherwise oppose the President, they would rise and the whole crowd of politicians would be literally unhorsed and trampled upon. "It is idle talk to say it has been literally unhorsed and trampled upon.
"It is idle talk to say it has been found necessary to organize the Robervelt forces so as to prevent opposition to his progress. Such sentiment does injustice to the facts, hoodwinks many people and makes it appear that some men of prominence are opposing the President. This is not true. Not a politician in Indiana would dare to try President. This is not true. Not a politician in Indiana would dare to try to stem the tide. We have a pretty clear-headed set of men in that State, and none of them wish to be run over. The effect of this situation, however, has been to cause some men to rush in to swim along with the tide and let it appear that they really are directing the whole business. That tide never needed anyone to direct it. The whole thing has been irresistible from the start."

NEW HAVEN (Ct.) Jan. 11—(Exclusive Dispatch.) William J. Bryan spoke here tonight to 300 people, delivering the first of fitty speeches which he said he is to deliver in university form to carry out filess of the law. Philo Bennet. Bryan said among other things:

Tonight I want to speak of a conscience campaign. I believe that we have all erred in that wk have spent too much time in trying to decide what will pay and too little time trying to decide what will pay and too little time trying to decide what is right. So many deal with trust questions or with the money question or with the money question or with the shor problem, or with any problem, in this way.

"Tonight I want, on this first opportunity that I have had to appeal for a campaign this year which will place before all things the moral principles that divide us and about which we talk-questions of national policy, questions of dinances, questions of taxationa, questions of that deeper, that century old, that world-wide struggle between man and man, between organised wealth and the common people of the world. I believe that if we can inject into our politics more of the moral, and mere appeals to souscience, that we shall solve these problems aright."

Fugitive Boodler Kratz Will Be Made to Unlock Door to Big Sum of Graft Money. (BY THE ASSOCIATED PRESS_AM) ST. LOUIS, Jan. 11.—Charles Krats. ST. LOUIS, Jan. 11.—Charles Kraiz, former member of the City Council, indicted on a charge of bribery, and who jumped a bond of \$50,000, in March, 1902, and went to Mexico, returned to St. Louis today in charge of Chief of Detectives William Deschood and Sheriff Dickman. It is alleged that Kraiz held one of two lorys to a safe deposit vault where, it is said, \$40,000 had been deposited by the Suburban Street Railway Company for a leighed distribution among the combined members of the Council to secure the granting of a franchise to bytend its tracks.

After arriving at the Four Courts, Kraiz was booked as a prisoner in the Central Police Station. He later was taken into Judge Taylor's branch of the circuit, where Circuit Attorney Folk argued in favor of fixing his bond at about \$100,000 in view of the prisoner's former escape. Judge Taylor, however, decided that \$46,000 would be sufficient and Krait's attorneys offered to go as security for that amount.

Washington, Jan. 11.—Gen, Rafael Reyes, the Colombian Envoy, who has been in Washington in connection with the Panama matter for about a month, left the city at midnight for New York, preparatory to his departure for Colombia in a few days. Preceding him went Gen. Ospina, who came here with Gen. Reyes as his legal adviser and who left for New York on an earlier train. Gen. Ospina, however, does not expect to return immediately to Colombia, as he has business interests in the United States demanding his attention. The departure of Gen. Reyes does not constitute the breaking-off of diplomatic relations with the United States, but merely the suspension of negotiations which have been going on with the State Department, having in view the reintegration of Colombia as a part of the United States of the United States of the United States of the Colombian of Panama as a part of the United States of the United States of the Colombia charge, remains in Washington to attend to legation business other than Panama matters. WASHINGTON, Jen. II.—[Exclusive
Dispatch.] There is every indication
that Panama is again to be the center
of attention. All outward indications,
as reported from both Panama and Bogota, are interpreted in Washington as
threatening war between the United
States and Colombia. This is the last
condition that the administration desires, but some of the Democratic Senators are charged with pursuing a line
of conduct and talk which, if not calculated to incite needless bloodshed,
may have that effect. The language
attributed to President Marroquin of
Colombia is regarded in Washington as
of serious import. Marroquin is quoted
as saying that he hoped that a conflict
might be avoided, "through Democratic
intervention in the Senate," and that
he counted on the "assistance of the
Democratic party to save the sacred
rights of Colombia."

MINER HIT

Many a rugged constitution has broken down by use of coffee:
"I and my son are miners and have been strong coffee drinkers. I will add I followed mining for fifty years. Nearly three years ago fay son had palpitation of the heart so bad that after a hard day's work he would be almost unable to get his breath when lying down, and I was a victim of constipation, headache and could not sleep soundly.

lying down, and I was a victim of constipation, headache and could not aleep soundly.

"So I pulled up stakes one day and started to see a doctor and curiously enough an old acquaintance I met on the way steered me off. We stopped and talked and told each other all the news and I told him about our troubles. He said it was coffee doing the work and that using Postum in place of coffee cured him of almost exactly the aliments I described.

"So instead of going to the doctor's I sent for some Postum, although I did not have much faith in it, but to my great joy it turned out all right and are now both of us strong well men with none of the old troubles. A miner is supposed to be able to stand great hardships, but we could not stand coffee. It was killing us. Any one following the directions on the package of Postum will have a far better drink than he can get from the best coffee. This is all very well, so far as it goes. It is certainly in exceedingly had taste for any person to sneer at Rockefeller—or any other "feller"—because of his belief or unbelief. How-

The meanest thing said about Gov.

One would naturally infer from the name which Mr. Fitch has seen fit to give to this creation of his furtile imagination, that the play would be a sort of farce-cemedy, light, fluffy, frivolous—anything but serious.

But—what's in a name? "The Girl With the Green Eyes" is a strong and purposeful comedy-drama—or rather, a drama-comedy, for the dramatic predominates over the comic to such an extent that at times it merges almost into tragedy. The action is unhampered and intense. It abounds in and overflows with the quality dominated as "human interest." It plays with consumante skill upon the strings of the emotions—motions which are common to frail humanity, the world over.

This is a purposeful play. It teaches an enduring lesson, without being in the lesst dull. In fact, there is this to be said of Mr. Fitch as a playwright—he is never dull. Of the many, many plays which he has given to the stage, good, bad and indifferent, all are entertaining to a remarkable dagree, whatever else may be their merits or defects.

The lesson which this play inculcates is one which, if thoroughly learned and heeded, would relieve the human family of a great deal of unnecessary misery and boarthreak. It is the lesson that when there is perfect love between man and woman, there should be perfect trust; that jealously is indeed "the little rift within the lute, that by and by shall make the music mune."

The girl with the green eyes is one who is prone to needless jealousy and unjust suspicions. She marries the man of her choice—a man of sincere and noble character. She begins the slaying of his gardiness. Circumstances lend color to these suspicions, and facts are distorted in her unhealthy imagination, until wreck and ruin—are well-nigh brought about.

The play is deffly wrought. It is rich in the comedy element, with the deeper current of heart-interest running slong side by side with the murmany shallows of laughter in every scane. It is bright, effervescent, witt, serious, and at three intensely dramatic—almost tragic, as we

As the Casp seems to be peaceably inclined, it ought to be comparatively easy for Russia to withheld her tendency to try to kneek the blooming daylights out of Japan. Since hearing directly from Russian headquarters, it must be conceded that the outlook for a preservation of the peace is more fattering than it has been for some time past.

It is to be hoped that the committee appointed to show those visitors from San Jose how Loo Angeles has grown, so great will be careful not to take the delegation past that melancholy ruin of a Federal building which rears its awful front on Main street. ORPHEUM. In Earnest Hogan the Ortheum Road Show has a worthy addition. Hogan is a colored manvery much colored, in fact, for he would almost make a dark spot in the noon of a summer night when there is no moon. He sings "coon" songs in a voice of very mederate excellence and does the regulation coon stutt—but that is the least of his talents. He is in addition an actor. He presented last evening several serious bits of monologue worthy of any stage artist. Among other things, he depicted the old ante-bellum negro cut to parade at the present time, and his portrayal of the crippied, bent darky, with his quaint little prides and old-fashloned, patriarchal sayings, was at once humorous and pathetic. Hegan is seconded by a very beautiful chooselectoired lady programmed as Miss. Mattie Wilkes. Miss Wilkes has a soprane voice in a state of excellent cultivation, and a dashing ability in the wearing of siuming grows.

The rest of the show is about the same as last week. The Meiani trio of Italian street musiclans won the most laughs. The old but clever "Back to the Woods" sketch has lost none of the treshness of its wolcome, either.

THE OTHER SIDE.

The principal argument in favor of Dr. Talmage was made by E. E. Galbreath. At the beginning he said:

"I really find no law in the church entitling this protest to be before this body. To the church belongs the prestigs and the inallenable right to choose its own pastor.

"If some persons who did not attend a meeting are to be permitted to come here and take up the time of this body with their protests, it will be opening the Tandora box' to admit that as the procedure of the Presbyterian Church. I apprehend that the only question here is as to whether the presbytery shall place in the hands of Dr. Talmage, this call.

"The church has been crowded, and the collections large since the coming of Dr. Talmage, and surely we cannot be mistaken in him. He is a man of clear brain, and and to instruct us; nothing has been said against him pernothing him pernoth

senally, and notwithstanding the assertion that if he comes there will be no peace, it is an open question."

R. D. List, treasurer of the congregation, was called out to present a deduction made from his books. It had been claimed that two-thirds of the funds supporting the church came from the seventy-five projectants, but Mr. List demonstrated that they paid \$1342, while all the others paid \$1351.

TALMAGE SPEAKS.

By unanimous cousent, Dr. Talmage was given the privilege of the floor to explain just how he had been led to come to Los Angeles, and to at the same time refute some statements that seemed to reflect upon his actions.

"It is a strange thing," said he, "that I, who have always been a man of peace, should come here and flad myself the center of a conflict."

He then explained at some length how a number of years ago he had been solicited by Dr. Chichester to take charge of the First Church of Los Angeles, but had declined; then how Rev. Aquilla Webb had visited him in Chicago in September and had told him that he was about to tresign the pulpit, and soliciting him (Talmage) to come here and taste charge of it. He stated that he said to Mr. Webb:

"If you find I'm the man I will go."

He detailed the correspondence between himself and these efficiency friends in Chicago, and the answered that he would come.

"Bome people said I hurried out; I didn't. I did not wire my acceptance for twelve days after receiving the information that I had been called." I came to forgive and forget; I came to save the old First Church i don't think I'm the best preacher in the world, but I do not believe that any man coult come with a sweeter motive.

"There's only one trouble; for ten years they've been fighting among themselves, and now we want to fight to save some one's soul."

WOMEN'S CLUBS.

Arthur Farwell, the handsome and talented young composer and founder of the Wa-Wan Press, showed by his interpretation of Indian music at the Ebell Club yesterday afternoon that the song of the elemental man strikes responsive chords in the breasts of the cultured and critical.

Mr. Farwell is well known throughout this country and across the sea as an ardent advocate of a dishactive American music, and as such originated the Wa-Wan Press at Newton Center, Mass., in 1591. This unique organisation is for the purpose of studying out a rational basis for a characteristic American music, and it publishes the works of authors expressing such worthy originality.

Mr. Farwell himself has made an especial study of the music of the American Indian, "The Wa-Wan," the stans he gave to his press, being significant of an ancient ceremonial of the Omaha Indians, and which, being interpreted, means "To sing to some one."

In the lecture recital Mr. Farwell explained that the great background of the Indian's music lay in his bellet in the Great Spirit, or rather in the "great mystery," which he recognised as the source of all these thinses. Dancing and song became his methods of prayer, believing, as he did, that the vibrations of music world in his songs, only a clew being given now and then to tell what it is all about. Words are insufficient for he seems to be in the transition state where poetry leaves of and music berling.

construction of the Alexander Block that is soon to be initiated on the corner of Rope and Sixth streets, speak in high praise of their workable and durable properties, and Architect John Parkinson has testified his approval of their qualities by using them largely in the magnificant twalve-story office building which he is putting up for the Union Trust Company on the southeast corner of Fourth and Spring streets. The crude product of the pits is shipped from Elainore to the brick companies in this city, and is here made up.

CREAT ORGAN'S MASTER HERE.

ARTHUR SCOTT-BROOK WILL DIS-PLAY ITS POWERS.

Arthur Scott-Brook, organist in Memorial Church, Stanford University, is in the city to become acquainted with the mammoth organ now being built by the Log Angeles Art Organ Company for exhibition at the St. Louis World's Fair and afferward to be pisced in the huge convention hall at Kansus City, Mo. The organ, the contrast price of which is \$47,000, but which will coat considerably more than that before it is finally installed in its permanent place, is the largest organ

stantly until the end of the World's Fair and until it has finally been placed in Convention Hall and accepted by its purchasers. He will live with it, study it, become familiar with its every detail, lears all its wonderful possibilities, is order that he may the better exhibit the powers of this great instrument at the exposition. If you go to the factory in which it is being finished, you will see Mr. Brook, in his working clothes, working on the organ just as any of the others are doing. He knows organs as the botanist knows a flower. Not only is he familiar with the mechanical parts and the manufacturing process, but he is presentinessity a player—a master of the pipe organ who can bring out all the giories of this wanderful instrument which challenges the violin and the 'celle for the fonor of being called the

EMBROIDERY SALE

We have ever attempted in the history of our store. It is the culmination of months of the most careful planning and buying by our embroidery man. Such values as will be offered here are without precedent.

Today at 25c the Yard

We will place on sale about 30,000 yards of fine cambric, swiss and nainsook edges, which would sell regularly as high as \$1.50 the yard. They are all hand machine embroidered and have buttonhole finished edges; are made of fine quality cloth in dainty patterns. They range from five to eighteen inches in width.

We also offer a large assortment of Insertion and Galoons made to match nearly all of the above edges. They are from 2; to 4; inches wide, and are worth up to \$1.50 the yard. You may choose from them today at only 25c the yard.

Shirtwaist Sale Continues

This sale of Sample Shirt Waists will be continued today. These are sample waists in the 1904 styles and are all excellent qualities. You can save at least onethird by buying them now.

BUM RIDE BY LEWIS LOSES.

Ultruda, Good Thing, Dumps the Wise Money.

One Hot Tip that Failed to Come Through.

Last Race Proved a Good Break for Bookies.

Ultruda was played in nearly every poolroom from Ban Francisco to New York yesterday. A "live wire" tip of the hottest kind was prevalent on Kirk's chestnut gelding. Ultruda was supposed to be one of the good things of the meeting and should have proved so but for the carelessness of his hoy. J. Lewis, who rode the heavily-played loser, sat still on Ultruda in a driving finish, let fittle Anderson outride him. and frittered away the race, tegether with the thousands of dollars that his backers stood to win. Opening at 1 to 1, Ultruda was backed down to 5 to 2 in a nine-horse race which contained four possible winners at least. In the last race, from the first gallop over the Slauson course, Pat Hammon, the favorite, backed from 3 to 1 to 5 to 2, dogged it badly. The Blissful race, fifth on the card, made to order for E. B. Smith's chestnut mare, cost some of the layers a little money.

Barney Schreiber's Eugenia B., in the third event, ran her way into the hearts of some whose money was laid on other horses. In spite of a miserable ride by J. Booker, she showed the speed all the way.

Posts and Diseases.

[BY THE ASSOCIATED PRESS—P.M.]
HONOLULU, Jan. 5.—(Wired from
Ban Francisco, Jan. 11.] The Territorial Board of Agriculture and Forestry
is preparing rules for the regulation of
importations of 'fruits, vegetables and
plants and examination of them before
they are allowed on shore, in order to
prevent importation of pests and diseases.

prevent impostation of peets and dis-cases.

The Territorrial grand jury has made a report on the vouchers of the House of Representatives in connection with which the Federal jury found that there were grave scandals, calling for Territorial action. The jury reported that its term was too near an end for a thorough investigation, and recom-mended that the matter be taken up by the next jury. Judge Rebinson accord-ingly charged the grand jury for the present term, yesterday, to investigate the matter.

Gas Hester Exploded.

Charles Chissier of No. 244 South Flower street was taken to the General and Emergency Hospital yesterday suffering from scales which extended all over his left side. The injuries are such as to confine him to his bed for a month or more, but there is no danger of their causing his death. While he was taking a bath yesterday, the instantaneous gas heater in the bath-room exploded, throwing boiling water all over him. The room was filled with hot steam, and it was with difficulty that Chissier reached another room without inhaling live steam. He came here recently from the East, and has no relatives here.

The store of the Phoenix Company, lealers in paints, oils, wall paper, soldings, etc., at No. 218 West Sixth treet, was damaged by fire to the inpount of \$300 or more last night bout 9 o'clock, and the printing office Allan Falconer at No. 218 West likth street, was damaged to the impount of \$100 by stroke and water. The fire is supposed to have originated from spontaneous combustion in the discretion of the paint shop. Owing to

meeting of the Methodist min-yesterday, resolutions were calling attention to the fact that passed calling attention to the fact that Rev. S. H. Inyeart is not a superannuate, as stated in The Times, but a supernumerary, and would be welcomed back to active relations whenever he saw proper to make his desire known. It also appears that Mr. Inyeart is not a stranger to California, but has been a ctive service here for twelve years. These statements grew out of the campaign for the election of a superintendent for the boys' home at Avery, for which Rev. C. C. Pierce is a prominent mandidate, Mr. Inyeart being the candidate of Mrs. Gregory for the place.

didate of Mrs. Gregory for the place.

Dr. Perguson Declines.

Dr. W. P. Perguson has found it necessary to decline the position of 'executive-secretary for the Westlake Methodist Church, in its arrangements for the entertainment of the general conference. He had anticipated being chosen corresponding secretary of the General Committee, also, but Rev. George A. Hough having been chosen to that position, Dr. Perguson decided that he would withdraw from all activities outside of his own rapidly-growing congregation on Boyle Heights, Julius Brown was chosen to look after the interests of Westlake Church. All arrangements for the conference are progressing favorably, and everything will be well done.

Threw Lamp at Him.

W. A. Bright, colored, was taken to the Receiving Hospital last night suffering from a long gash under the left sye, which had severed two small arteries, causing a flow of blood which covered the bottom of the patrol yagon. He would not tell how he recovered the bottom of the patrol yagon. He would not tell how he recovered the injury, but from others the policy learned that in a little exchange of phesantries with his wife, who had become jealous of his alleged attendions to another woman, she handed he accome jealous of his alleged attendions to another woman, she handed he accome jealous of his alleged attendions to another woman, she handed he accome jealous of he right arm. It thruck him under the ere and the surrecons at the Receiving Hospital sewed the survey of the woman was not arcested, and even if the police should in her it is probable that Bright would refuse to prosecute her.

FAKER DISGORGES.

"Evangelist" Winters Forced by Police to Return Big Money Taken from Deluded Old Man-Victim is Saved from Suicide.

B. BROWN, an old man, who came to Los Angeles from Sait Lake City about three weeks ago and who was bunched out of \$150 by the "Evangelist" C. H. Winters's fake-healing aggregation now holding meetings at Temperance Temple, yeaterday started out to commit suicide by drowning himself in a filthy sump-hole and was only saved from self-destruction by the prompt and vigorous action of the polica.

The officers not only saved Brown's life, but they also were the means of setting back the poor old man's money, by making Winters' confess last night that he had received the funds, and agree to accompany the officers to the Pirst National Bank this morning and return the amount Brown had given him.

Into omcers not only saved Brown's life, but they also were the means of retting back the poor old man's money, by making Winters confess last night that he had received the funds, and agree to accompany the officers to the first National Bank this morning and return'the amount Brown had given bim.

Winters's solemn promise that he will appear at the Police Station this morning and fulfill the agreement made by alm last night, was the only thing which saved him from being taken into ONE VACANT CHAIR.

There was one vacant chair on the lastform at the "evangelist" meeting at the temple last night. It was the chair smally occupied by Chief Exhorter C.

name of the Lord in an effort to avoid the issue.

"That money was freely given to the Lord, brother, and —"

"Just cut that out," replied the officers, "and return this man's money."

"All right," replied the "evangelist," quickly, "he van have his money any time he wants it. His drafts are in the First National Bank, but I'll get them tomorrow and give them back to him, or else I'll give him a check for the money right now."

As a Winters's check was considered worthless at 8 o'clock last night, it was finally arranged that Winters should appear at the Police Station fils morning between 10 and 10:30 o'clock, accompany the officers to the First National Bank and either secure the frafts, if the bank has not yet sent them on for collection, or return the man's money in cash.

BROWN'S PATHISTIC STORY.

A week ago last Saturday night frown orified into the Winters meet.

A week ago last Saturday night Brown drifted into the Winters meet-ing. He heard the men on the stage and the women in the audience pour forth wild and passionate harangues; he saw others worked into a so-called religious frenzy; he watched them go forward and lay their offerings on the

mediately sent him to the station.

OFFICERES TAKE A HAND.

Up to the present time the police department has not interfered with the Winters meetings. But, after making careful investigation of this flagrant case, it was determined to send two detectives with Brown and demand the return of the man's money. Winters was found in the lobby of the Temperance Temple shortly after 7:30 o'clock last night. When informed that officers wished to see him, he led them to the darkness under the staircase, and soon learned their mission. Winters was repentant at once. He was willing to do anything—to return the money immediately.

"It told the "trustees" we ought not to take this man's money," he said, "because I did not think he was just right in his head, and we offered to sive it back to him, but he refused to take it."

"If you thought he was irresponsible, why did you take his money?" asked an officer.

"The "trustees" voted to take it, and as majority rules in our body I was obliged to give in," replied the "evangelist."

"Then if this game of yours is an honest and square one, why didn't you take his money just to satisfy him and report to the police and ask that Brown be cared for by the proper officers?"

WINTERS STUMPED.

This stumped Winters. He could

WINTERS STUMPED.

This stumped Winters. He could not answer it. He began a long explanation of the mode of operation of the "body," all of which was far from the point. He was patiently heard to the end by the officers, who then got down to business, made Winters agree to return the full amount this morning, and permitted him to go into the hall and assist in the "saving" and printing of more deluded people.

WANTS A PRESS.

Winters told the officers he was trying to raise \$2500 to buy a printing press to turn out papers which are to be sent broadcast to "save" people. Sane people will at once see the ridiculous and filmsy nature of an appeal for such a purpose on the part of itinerant exhorters who set themselves up as evangelists.

But, then, one need only attend a Winters meeting to become convinced

of the fake character of this "body," as Winters calls it.

Last night a colored woman set the audience afiame with a southern revival speech, accompanied by frantic waving of arms, stamping of feet, shouting, yelling, praying, exhorting, and all the wildness usually attendant upon a down-South camp meeting.

Winters claims he does not handle any of the funds that come to the "body." The "frustees," he says, attend to all the financial transactions. He also claims that he does not ask for money or gifts, but anyone who will go to a meeting and hear Winters cry out for contributions, and sneer at those who cannot give much, but who give all they have, will form a very different idea of Winters's methods from that given by the man himself.

Bood Work by Firemen Prevents the Spreading of Dangerous Blaze at Seventh and Figueroa Streets.

Seventh and Figueros Streets.

A long row of frame sheds in the rear of the flats at the southeast corner of Seventh and Figueros streets became ignited at 10 o'clock last night, and for a time the flames endangered the flats and a neighboring livery stable filled with inflammable material. The fire originated in a portion of the sheds occupied for storage purposes by R. B. Boyd of the Boyd Drug Company, whose store is at the corner of Seventh and Figueros, and in which was an Oldsmobile which Mr. Young had just purchased. The machine along with all the other contents of the place was destroyed, and the fire damaged the rear of the flats. The loss on the buildings will not exceed \$500, and on the contents will amount to about \$1200. The loss except that to the automobile, which was worth \$700, is covered by insurance. The property belongs to Mrs. Elias Wilson. Only the good work of the firemen prevented a serious configuration.

A tangled-up suit is being tried before Judge York, wherein Jeff White is seeking to have f deed of agreement to J. A. Stanwood and Assemblyman Henry E. Carter canceled. Some of the developments so far have been interesting as showing the underground methods of business that were followed by the plaintiff, and additional revelations are anticipated today.

Charles H. Hogeman was too speedy in recording a deed of conveyance from his wife to himself, and now Mra. Mary B. Hogeman has taken the initiative in seeking to have the deed canceled.

They petitioned the Council yester-day to include their street in the con-duit district within which all wires must be placed underground. For several years the companies have had taings about their own way. Many beautiful shade trees have been ruthlessly mutilated in order to make room for the wires. Small attention was paid to the proteests of property owners. Because the plot of ground between the sidewalk and the curb is part of the street, attorneys held there was in recourse against a corporation possessing a franchise.

The improvement organizations have been considering the pole nuisance and plans for its cradication. The Municipal Art Commission is preparing a recommendation on the subject.

As it is not deemed likely that the Council will take independent action affecting the whole city, recourse to the initiative has been discussed.

The petition of the Adams-street residents, presented yesterday, reads as follows:

"We, the undersigned residents and

Todd prudently remained in the street property owners on Adams street respectfully represent to the Council that Adams street, for many years recognised as one of the most beautiful residence streets in the country, and as such an attractive and valuable asset of our city, has been greatly defaced by the placing of poles and wires along the street; that the telephone and lighting companies have caused many trees along the sidewalk to be trimmed or cut in such a way as to rob them of their beauty, and that this has discouraged and prevented the planting of other trees to replace those dying or removed; that the increase of the poles and wires now being made will still further injure this street, and that unless remedies be adopted without delay the great beauty of this street will be gone, only to be restored, if at all, after long years of planting and growning.

We respectfully request the Council, in the interest, not only of Adams street, but of the whole city, to make of Adams street from Main to Hoover at least, a district in which all wires in the East, whither he was called to attend the white he wis concilinate. MAYOR'S RECOMENDATION. Mayor Snyder believes that persons Mayor Snyder believes that persons under arrest at the City Jall should be given wider latitude in communicating with friends. At the present time messages are sent from the jall at certain times for persons who have money, but there is no fund to pay for messenger service for those who lack the coin of the realm. The Mayor believes that persons under arrest should be afforded means to communicate with persons who might provide them with bail money and be given an opportunity to who might provide them with ball money and be given an opportunity to inform relatives and friends of their whereabouts. To bring this about the Mayor sent to the Council yesterday the following messare, which was referred to the Finance Committees:

"Upon investigation, I find that no porvision has ever been made at the police station for the sending of messages from parties under arrest to persons with whom they desire to communicate, except in cases where the prisoner has funds in his possession at the time of his arrest. This frequently makes it difficult for prisoners to communicate with their friends or relatives, and is a hardship upon those detained in the city prison.

"I, therefore, recommend to your honorable body that you set aside not to exceed the sum of \$15 per month for

W. T. Jeffries, late a sergeant in the Police Department, filed with the Police Commission yesterday a formal request for reinstatement or a pension. It has been understood for some time that Jeffries intended to contest his removal, but the way was not clear for him to begin proceedings until, at the last session of the board, the City Attorney rendered a verbal opinion to the effect that Jeffries had been regularly removed from the Police Department.

In his communication to the Police Commission, Jeffries states that he served seventeen years in the department and filled the position of captain for more than sixteen years. He says that during that period he was never called before any board for any dereliction of duty, and that his record in this particular has never been equaled in the department.

Jeffries served under eight different chiefs and he says he was never criticised by any of them, and that his work was never unfavorably commented on by these superior officers.

He makes the point that no charges were preferred when he was dismissed, December I, last.

During the last year Jeffries says that he lost large sums of money through unfortunate investments.

The former sergeant says that he has notaling to conceal, and that his record is open to inspection and investigation by the Police Commission. He says the best years of his life were spent in the service of the city, that his health was impaired by police duties, and that he is now unfitted for other occupations.

his health was impaired by police duties, and that he is now unfitted for

In conclusion Jeffries asks that he
be reinstated in the department, or
given a pension, according to law.
Jeffries was dismissed from the force
without any cause being assigned by
the Police Commissioners, but it was
generally understood to be because of
his fiscal transactions. He borrowed
money from several officers on the
force and failed to repay them. Jeffries is also alleged to have been involved in several peculiar financial
transactions with rersons outside the
department. It was given out some
months ago that he had lost large sums
by speculating in corInsolvency proceedings were begun
by Jeffries, but such an emphatic protest was made by his creditors that
the proceedings were withdrawn. This
unusual procedure caused much adverse criticism, and ended in an order
from the Police Commission dismissing him from the force.

OPPOSE HOSPITAL

PETITION IS PRESENTED. PETITION IS PRESENTED.

Laundries and hospitals are not regarded as desirable neighbors by a large number of people. An ordinance forbidding the maintenance of a laundry within 250 feet of any residence, schoolhouse or church, was passed by the Council yesterday, and to the Legislative Committee was referred a numerously-signed petition asking that a similar ordinance be passed regarding consumptive hospitals.

NO BRICK AWARD. CONTRACT HIGH IN AIR.

Councilman Davenport was fined for contempt by Summerland, who pre-sided at yesterday's session, because luring a debate he used the word "brick."

"That word is barred," said Summer-land, "Don't let me hear anybody else say 'brick'-today."
Summerland expressed the senti-ments of the other members of the Council, although several of them would not admit their feelings so openly.

would not admit their feelings so openly.

President Bowen did not return from San Francisco in time to attend the session. Todd prudently remained in San Diego. Parish is in the East, whither he was called to attend the funesal of his mother. The remaining siz Councilmen found enough trouble in agreeing on ordinary items of routine business and did not attempt to settle the brick row.

Early in the day it was announced that the consideration of brick bids would be postgoned for a week, but Joe Simons and other faithful brick-makers remained about the hall for a good portion of the day, just to keep an eye on the legislators.

They stated that they took up the janitor question at the request of the Chief of Police; that they visited the jail and investigated the situation thoroughly, and then recommended that the position be abolished. They said the Chief informed them that the janitor spent more time fighting boose than in attending to the janitor work of the jail, and that the head jailor and the head driver had to do much of the work with the trusties. On this showing they recommended that the position of janitor be abolished, and that the salaries of the two policemen be increased \$15 a month each.

Davenport made an impassioned reply.

be increased \$15 a month each.
Davenport made an impassioned reply.

"Some one has handed this Council a gold brick." he declared. "The Finance Committee did not realise that they were getting a gold brick, but they got it all right, all right. Why this requisition asking that Burgoyne be paid \$15 for janitor service is signed by the same man that the Finance Committee says he told them was spending his time in boose-fighting. Does that seem reasonable?"

Summerland charitably put in that the man might have reformed.

Davenport replied that he had no interest in Burgoyne, as he had left the department and did not wish to continue as janitor, and that his efforts were directed solely to find out who it was that handed the Finance Committee a gold brick.

Davenport will probably report an ordinance at the next session giving special protection against bunco steerers to rubes and Councilmen. It the meantime the question remains, "Who was 'it that handed the Council the gold brick?"

JEFF WHITE'S TROUBLES OVER ATTORNEY'S FEES.

Made Over His Chances of a For-tune When Fate Seemed Unkind and New Wants to Call the Deal

Thomas Jefferson White is the young man who made over all his chances of inheriting \$700,000 for the modern equivalent of a mess of pottage.

That is the way it appeared yesterday in the tangled-up suit that he is waging against Assemblyman Henry E. Carter. To serve his own purposes he made over one-half of his expectancy as helr of his aunt, Mrs. Mary A. Hotchkiss, to J. A. Stanwood and Attorney Carter. But he did not tell the latter that about a month before he had made over also one-half of his expectancy to Stanwood, thus with the two deeds disposing of his entire interest, which, it is averred, is worth at the present time \$700,000. Stanwood also kept mum, and only in court yesterday did this behind-the-curtain conveyance show forth, with other curious circumstances in connection with the case.

Stanwood was administrator of the

This brief but suggestive testimony was corroborated by other witnesses including Police Captain Auble, and the order as stated was made by the court.

DEER HUNTING

A communication has been received by the Board of Supervisors from the State Game and Fish Commission, drawing attention to the fact that the State law bearing upon deer hunting was not contemplated to meet the varying conditions in every county of the State. It was supposed that the several counties would supplement the State law with ordinances adapted to provide for the protection of deer in the particular locality, in accordance with the climatic conditions there prevailing.

DENIES THE HUSBAND.

Charles H. A. Hogeman outwitted himself, if the statement of his wife is correct, and now he has to sit up and munch at the lump of humble pie that his better half is doling out.

Mrs. Mary B. Hogeman has begun suit against her husband to have a certain deed cancelled. In the early part of 1502 she says that her thoughts were upon the possibility of her dying, and as to how she would dispose of her property. Her husband advised her that it was a good way for one to make a deed to property and then deposit it in some secure place without recording it. Then when death intervened the person to whom the deed was made could take it and record it, and all the trouble and expense of probating could be avoided.

Mrs. Hegeman says that is just what whe did. Certain real estate which she holds in her own right she deeded over to her husband, and then deposited it in the safety-deposit vaults. Her husband had a key to the box, but it was agreel that he was not to have the deed recorded except in the contingency of his wife dying.

But, on the quiet, Mr. Hogeman did have the deed recorded except in the contingency of his wife dying.

KILLING SQUIRRELS. William Pinkerton of Monterey county appeared before the Supervisors yesterday to try and interest them in a recipe that the possesses for killing off squirrels. He said that the compound had been used in Monterey and San Luis Oblepo counties with great success, and Ventura county was about to test it. The board referred the matter for consideration to the Horticultural Commissioners.

The Board of Supervisors have granted an extension of three months' time to Contractor Engstrom, on the contagious ward of the new County Hospital.

Work upon this building is behind hand owing to the strikes in the East washing it impossible to get delivery of structural iron on anything like time. While further delays are not anticipated, the contractor here is going it billed to some extent, and cannot be assured that delivery will be made when agreed upon owing to the feeling of unrest in certain branches of the iron trade in the East.

TRAIN THREW HIM.

POMONA, Jan. 11.—M. McKenney, a teamster residing at No. 554 West Sixth street, nearrowly escaped being killed at 5:30 o'clock tonight by a Salt Lake train at the Rebecca-street crossing. He was driving two horses across the tracks and did not see the train in time, owing to a slight bend in the road. The engine struck the wagon, upsetting R. McKenney was thrown out, but landed in a sitting position by the road. He was put in the baggage car and brought to the Salt Lake depot here. Although badly shaken up, no bones were broken or internal injuries suffered. The horses were uninjured. Just at present a large amount of street grading, curbing, guttering and laying of sidewalks is being done throughout the city. Preparations are also being made to do much of this kind of work at the new High School tract about the school grounds. The Salt Lake railroad company has been putting in ample storm culverts on Ellen and Main streets and Garey avenue.

OCEAN PARK.

HAS TWO POSTOFFICES.

OCEAN PARK, Jan. 11.—The civil and political division of Ocean Park and Banta Monica is peculiar in this, that Santa Monica is the only city in the United States having two separate and distinct postoffices within its corporate limits. And to complicate matters there is soon to be held a special election for the purpose of creating a new city of the sixth class to be known as Ocean Park. The proposed new town is situated south of Marine street and north of Short Line beach. It is in Ocean Park precinct, but has no business houses, churches or schools. Even the postoffice of Ocean Park is in Santa Monica. The election is scheduled for February 12, when five Trustees, a Recorder, Treasurer and Marshal are to be voted for at the same time the electors express themselves either "for" or "against" incorporation.

out along practical reformatory lines. The treasurer reported a surplus of \$35. and the Missionary Committee went on record as having accomplished results surpassing the efforts of previous years. During the year the union has given to foreign missions, \$108.75; to other missionary endeavor, \$220.40, making a grand total of \$1982.57, an increase over last year of \$609.00. One society alone contributed \$562, an average of \$4.14 per member. The membership of the union has also been on the increase. Despite the transient nature of the general membership the present enrollment exceeds that of a year ago by 257. The union now has lifely active members, 196 associates and 192 honorary—a total of 1829. Paul Brown reported the progress made in substituting coffee clubs for salcons, and stated that at the original club, organized a few months ago, the present daily attendance is more than one thousand. The second club is now in successful operation.

Since the last annual meeting the Floating Committee has been organized, and is doing good service at San Pedro, among the sallors. Meetings are held in the hull of an old warship, Hospital work has also been undertaken and good results are being secured.

The following officers for the ensuing year were chosen: President, F. D. R. Mooter of the Central Presbyterian Church; first vice-president, H. S. NEW SCHEME OF BALLERING FAILS TO WORK.

Crib Women Can no Longer Ply Their Vocation—Locating in Upper Story Does Not Render Them Im-mune from Arrest.

An ultimatum has been delivered to the denizens of the redlight district notifying the crib women that they will not be permitted to continue their for-mer practices whether their rooms are in the second story or on the ground floor. Last night Capt. Auble, accompanied by a detail of police, made the rounds of the district and informed every woman he saw that no violations of the law would be tol-

"I visited Alameda, Aliso, Los Ange-Capt. Auble on his return to the station, "and not one case of soliciting did I see. These women understand that they cannot resume business and if they attempt to do so, wholesale arrests will quickly follow. They cannot evade the law by trying to occupy
second-story rooms if they continue their old tactics. Occupants of quarters in this district must remain inside with their
doors closed or they will be arrested
on charges of yagrancy."

on charges of vagrancy."

Old Bartolo Ballerino did not welcome the police with open arms to his "International Hotel" last night.

On the contrary, he fumed and raged declaring that the police had no business there.

declaring that the police had no business there.

"I don't see why they go to so much trouble about me," he said, "for I am breaking no law. See how orderly my place is," and he waved his hand at the motiey crowd of Mexicans, Chinamen, negroes and curlosity seekers who were swarming in and out of the various holes like sewer rats. Many were attracted because they thought something was going to happen, but the women kept themselves well out of the way and no arrests were made.

Robert Grau Wants Damages from Weber & Fields for Alleged Statement. (BY THE ASSOCIATED PRESS—A.M.)

NEW YORK, Jan. II.—Robert Grau, incorporated, the company having in charge the mahagement of Adelina Patti this season, has brought suit for \$50,000 against Weber & Fields, for this city. The plaintiffs allege that they were damaged to, this extent beautifully decorated for the occasion, while in the dining-room below provision had been made for a merry time about the tables. At each plate was a neat little "C. E." emblem and badge and a profusion of flowers made bright a scene in itself brilliant.

During the banquet hour retiring President Leon V. Show, was master of cerémonies, and the feast concluded humorous addresses were in order from the Rev. William Horace Day, the Rev. C. C. Remarkable Story as Related to the Detectives.

the story which J. H. Neil of No If the story which J. H. Nell of No. 2009 Magnolia avenue related to the detectives last night be true, he was the victim of one of the boldest hold-ups which has been committed in this city in a long time. The story may be straight, but there are points about it which, until they are explained, will cause a doubt to linger in the minds of those who heard his version. Regardiess of this doubt, however, the detectives are making every effort to find two men whom Nell described to them.

Regardiess of this doubt, however, the detectives are making every effort to find two men whom Neil described to them.

The robbery is alleged to have been committed about \$:45 o'clock last night on Magnolia avenue, a short distance south of Washington street. Neil had been to a store at the corner of Washington and Magnolia, and was returning hime with two large bundles in his arms. One was a sack of apples and the other contained a piece of beef. He had seen no person on the street, but when he reached a dark place he says he was seized by two men, one of whom threw his arm about his neck from behind and tried to throw him uson his back. The second robber seized his hand to prevent him from making any effort to draw a weapon.

He says he fought the robbers as beet he could, the hold on his throat preventing him from making any outcry. With his free hand he took his fine gold watch from his pocket and threw it over the fence at his side. He continued to struggle with the robbers along the sidewalk, but they finally secured 356 from one of his pockets, failing to find \$14 which was in silver. They took also a number of papers which were valuable only to him, and then, having completed their work, released him and fied. He went at once to the nearest telephone, and notified the police department. Several officers were sent to the scene, and, accompanied by Nell, went over the ground. His bundles were found where he had dropped forty feet from the inside of the fence, which at that point is about seven feet high. Neil found the watch within eight inches of the fence line and directly behind a hole in the bottom of the fence, Had it been placed there it probably would have been laid about where it was found. It was also noted that Neil's bundles were dropped forty feet from where the watch within eight inches of the fence, and saved his watch.

He said that the robbers made no demand upon him for money, and showed no weapons, but relied upon man strength to accomplish the crime. He saw both of them perfectly while

School Hereafter Once Each

Month.

The hardest work in connection with the weekly meeting of the School Board nowadays is getting up to the handsome quarters, to-be, of the board on the fourth floor of the Chamber of Commerce building. Strange echoes were awakened last night as a long file of men, puffing and blowing, stumbled through the dark hallways. The elevator was not running. It took less than an hour to dispatch the business, and beside the hearing of the regular reports of standing committees, little else was done.

The suggestion of Walter Horgan that rule No. 19 relative to a monthly fire drill be enforced, was favorably received and an order, that this rule, which has not been observed, be henceforth carried out was given.

The president, Mrs. H., T. Griffith, and the secretary, Mrs. M. P. Boyd, of the W.C.T.U. submitted a communication offering prises of \$5 and \$2. for the first and second best essays written on the subject of the dangers of cigarette smoking by students of the eight grades of the public schools. Here is a chance for the small boy who has been experience in this line to turn it to his profit.

The board passed resolutions of respect for Miss Margaret Huston, a former teacher of the High School, who died last week. A communication from the City Council stated that the new schools on Alpine, Casco and Sixteenth streets are ready for occupancy.

The Laundry Class.

In many of the schools of domestic science, laundry work is now taught in a thorough and scientific manner. In the laundry classroom Ivory Soap is always used to wash the articles that require special care and it is frequently used to the exclusion of all other soaps. It is as important to know the best materials for domestic use as to know the best methods for using them, and Ivory Soap is very generally recognized by those who have carefully investigated the subject as the safest and purest soap.

Pretty, popular Ida A. Trickey, daughter of Mr. and Mrs. Silas Trickey of Ontario, was married to Wayne Foote of Pomona at 4 o'clock yesterday afternoon, at the home of her parents. Miss Trickey has been one of the most sought-after girls of the yalley and the wedding was particularly quiet, as there were several suitors whom the clusive Miss had "thrown over" and to avoid any feeling in the matter, very few were informed of the event, and so it comes as a surprise to the many friends of the contracting parties. The ceremony was performed by Rev. C. D. Williamson of Pomona.

The bride wore a handsome tailor suit of brown, with hat to match, and carried violets. Mr. and Mrs. Pocze have gone on a honeymoon, dingrawhich they will visit relatives of the groom in Des Moines, Iowa.
